

# TEQVOLY

Teqvoly is a new sport inspired by the new Hungarian innovation, Teqball.

The idea of this new sport was to combine the advantages of the Teqball table with some of the basic elements of volleyball, and taking it to the next level by creating its own rules and scoring system.

Benefitting from the table's curved shape, Teqvoly isn't only a fast and dynamic sport to play, but it also serves as an enjoyable spectacle for its audience.

Teqvoly is easy to learn for everyone after a few minutes of practise; as a result, it is enjoyable for beginners and professionals alike.

Teqvoly's aim is to bring an energetic and entertaining sport to the world for everyone to enjoy!

## WORLD CHAMPIONSHIP

\$25,000 prize money will be distributed between the top 8 teams. Female, male and mixed teams will play in the same division.

The Teqvoly World Championship will be held on 6-8 September. We provide practise opportunity for each team on 6 September.

A team has to pay €50 registration fee and has to travel to Budapest. Transportation to the hotel, accomodation, food and beverage and a city tour is on our company.

6 September – practise, opening ceremony with the draw

7 September – group stage and single elimination

8 September – semi-finals and finals

## MAIN RULES OF TEQVOLY

- Teqvoly is played by two teams of two players
- A match is won by winning one or more sets depending on the competition format
- A set consists of two winning games
- A game is won when a team reaches 8 points
- There is a hexagon shaped line system consisting of baselines and sidelines, which plays an important role in ruling the actions that take place on the court
- Doublepoint: a chance to score two points instead of one (per set)

- The server has two chances to execute a successful service
- The serve must bounce only once on the opponent's playing surface of the table
- Each team has a maximum of 3 touches, a minimum of 1 pass is required and passes need to alternate between players on the same team
- When returning the ball, it must bounce only once on the opposite side of the table
- Returning the ball is only allowed if the ball is on your own team's side
